BCHW, Peninsula Chapter

Lower Dungeness Trail (#833.3), Olympic National Forest
3 October 2026

Crew members
David Graves
Fred Inman
Kellie Creamer
James Miller

Quick Stats
On-trail volunteer hours: 28
Hours including travel time: 29
Miles worked: 0.1 miles
Total miles hiked: 1.0 miles
Trail standards: Stock use

Objectives:

- Repair the tread, at the lower end of the trail, where a tree had fallen over so that the trunk and rootball covered the tread.

Achieved:

- The crew had two options: either fully remove the trunk and rootball or to build new tread around the backside of the rootball. The crew took the second option as it was only one achievable without a large crew and rigging equipment.
