Dungeness Trails

Located right in Sequim off of River Road, this network of trails is basically flat, running in part along the Dungeness River. There are plenty of trails, but the one marked Perimeter Trails loops around the entire area and ensures that you'll end up back where you started.

Getting There

At the corner of River Road and Happy Valley Road there is a broad turn-out suitable for 4-5 horse trailers. You can stage here and take a short trail through to the west side of River road where the majority of trails are located. There is work in progress developing trails on the east side of River road as well.
