

## Lake Crescent Overlook

This is a network of logging roads and clear cuts that offer amazing views of Lake Crescent, the Olympics, and the Strait.

The logging roads are a bit of a climb to access the view points and much of the roads are rock surfaced so shoes/boots recommended (just ride around the gate, head up the road, keep to the left until you get to the top). Lots of roads to ride that offer views to both the north and south.

### Driving & Parking Directions:

Head west on Highway 112, take a left onto the Joyce-Piedmont Rd. (at the Crescent School), continue about 3.5 miles.

Look for a pull out with a white gate on your right (west side). Can park a couple trailers here.

If you continue south down the Joyce-P. road there is another pull out on the left (east) side of the road that can park a few more trailers and/or can be used as a turn around for big rigs.
